Volodarsky municipal district

Construction of an oil extraction plant with an elevator

PROJECT DESCRIPTION

The project implies the construction of a modern, energy-efficient rapeseed oil extraction plant to meet the growing demand for high-quality vegetable oil for export. The project is initiated by JSC "BioTekh", a project company and a resident of TAD "Volodarsk".

Project advantages:

- High demand for finished products (rapeseed oil, rapeseed meal)
- Low production costs due to the use of local raw materials
- Proximity to sales markets
- Lack of competition in the region
- Use of energy-saving technologies

Project parameters:

- Project cost – 2.8 billion rubles
- Production capacity – 96,000 tons/year
- Implementation period – 2 years

Economic efficiency of the project:

- Revenue – 429.4 million rubles/year
- IRR – 26.6%
- NPV – 2.8 billion rubles
- Payback period – 5.3 years

Site requirements:

- Area – 8.5 ha
- Power supply reserve – 1 MW
- Connection to water supply, sewerage and gas supply networks

Available territory for implementation: Volodarsky municipal district, TAD "Volodarsk"
